Nancy/Snehal,

I am so sorry I missed the call. Unfortunately I was in a meeting with our Assistant Regional Administrator about another critical site in Louisiana. I finally left that meeting before it was over because I was missing the San Jacinto call, but was already too late.

We have already drafted a fact sheet that will be shared with the community-at-large and are working on a CEI comprehensive report to be shared with EPA HQ and all the partners about the meeting. The report will include the questions asked and the related recommendations. If the community recommendation needs to go to another agency than EPA for follow-up action, (for example a health related issue) we plan on forwarding the recommendation on to the appropriate agency.

The World Market questions are attached below. Let me know if you have questions.

Beverly

Beverly, thanks for the call back today. I'm sorry you weren't able to get down to the call.

I'm sorry that I wasn't able to attend this event. It is a method that I have heard about a great deal being used now. The CAC spoke very highly of the event and I believe that it was the City Atty who stepped into the meeting and also stated that it was a very worthwhile project.

Snehal asked about getting transcribed notes from each of the tables for the CAC.

Also of note was

- information was received about people selling local fish to local restaurants – local restaurant owners should be engaged about the area fish – Snejal will provide feedback on licensing at the next meeting;
- Maurine of the Texans Together group is a “home grown” person and would like to be instrumental in outreach efforts - Christi will act as liaison between Maurine of the Texas Together group and the current CAC;
- Outlets for education should be more focused on newspapers and schools rather than marinas and sporting goods stores.

Could I get a copy of the conversation guidance flash card questions asked at the conversation café?

Hope you have a great rest of the day.

Nancy Ingram
